My dear Timothy Leary,

I feel that as we met with Aldous Huxley in Nov 1960 & have corresponded you will forgive informality. I shall be in New Jersey from 27th June & in Canada & USA until 21 July.

I am very keen to meet you & hope this will be possible. I would plan to be in Boston around about 10th July - if this would suit you. I am keen to hear about your work & plans, & also hope I shall meet my old friends Max Rinkel, Robert Hyde & Walter Barton. I'm also very keen to meet Mark Atschule whose work is closely connected with ours.

I saw Eileen Garrett yesterday & know she is much interested in what you are doing. I am also hoping to meet Anthony Brooke in the very near future. He has been in West Africa & gotten some malaria but I understand they have been putting in suitable antimalarials.

Please let me know as soon as you can for I shall have to get my various schedules worked out. It will be hell I don't doubt dashing from one spot to the other: but hell is what you make it,

yours sincerely,

Humphrey Osmond
